A Geistlich Masterclass on Hard and Soft Tissue Aesthetic Outcomes - Hands-on Workshop with Keynote Speaker Prof. Giulio Raspernini and Dr. Amit Patel
28th September 2021, Royal College of Physicians, London.

Prof. Giulio Rasperini
Dr. Amit Patel
Dr. Viraj Patel
Dr. Fazeela Khan-Osborne

FACE TO FACE LEARNING IS BACK

Full price ticket £449
To book your place, email us at: marketing@geistlich.co.uk
Programme

8:30 - 9:00  Registration

9:00 - 10:15  **Prof Giulio Rasperini** - Bone & Soft-Tissue Regeneration: Approaches to Long-Term Aesthetic Success

10:15 - 10:30  Coffee Break

10:30 - 11:20  **Dr Amit Patel** - Predictable Aesthetic Outcome Using Resorbable Collagen Matrix

11:20 - 12:10  **Dr Viraj Patel** - Fundamentals of PREDICTABLE Guided Bone Regeneration

12:10 - 12:20  Q&A

12:20 - 13:10  Lunch

13:10 - 14:00  **Dr Fazeela Khan-Osborne** - Socket (Ridge) Preservation using Bio-Oss Collagen: Fact or Fiction 2021

14:00 - 15:30  Workshop 1

15:30 - 15:45  Coffee Break

15:45 - 17:15  Workshop 2

This event is worth 8 hours of CPD.

Supported by

Please note this programme may be subject to change. The final programme will be circulated one week prior to the event.
During this hands-on workshop, both vertical and horizontal bone augmentation techniques will be discussed and trialed by attendees with a particular focus on biomaterials and surgical techniques.

Understand the factors that influence the stability of the soft-tissue margin over time which include prosthetically planned implant placement, patient phenotype, alveolar ridge dimension, the platform switching concept, the prosthetic design, along with implant and abutment characteristics.

Understand bone regeneration techniques complemented by soft-tissue management in the form of appropriate incision design, suturing techniques and thickening with connective tissue grafting and/or collagen matrices, that protects the healing and results in an optimal final outcome.

This hands-on course is designed for practitioners with an interest in expanding their treatment options for bone and soft-tissue regeneration.
Learning Outcomes

Dr Amit Patel - Workshop 2

Implant dentistry has changed over the recent years. Our patients aesthetic demands have increased and we as clinicians strive to achieve a natural and aesthetic outcome for them. But the problem is sometimes our patients do not want us to open a second surgical site, this is where a form stable collagen matrix has a significant role to achieve the results our patient wish. With the new theory of the zero bone loss concept, we can now use new biomaterials to help increase the vertical soft tissue volume above implants, especially in molars, to reduce the risk of bone loss. This lecture will fully cover these areas.

- Understand flap design for predictable aesthetic outcome.
- Understand the concept of zero bone loss with biomaterials.
- Evaluate the current evidence to determine vertical augmentation procedure.
- Understand the use of collagen matrix in posterior region to reduce the risk of bone loss.
Prof Giulio Rasperini is an active member of the Italian Society of Periodontology, the European Academy of Esthetic Dentistry (Vice-President from 2016-2017), he is a full member of the British Academy of Aesthetic Dentistry (BAAD) and an ITI Fellow. He serves on the Editorial Boards for several publications, including: the International Journal of Periodontics & Restorative Dentistry, as well as the Journal of Implant & Advanced Clinical Dentistry.

He has been the recipient of a number of research-focussed awards in the area of Periodontology & Implantology: International Quintessence Publishing Award (Boston 2000-2004), Goldman (SidP 1996-2010), Clinical Research Award EAO (Glasgow 2010), R. Earl Robinson Periodontal Regeneration Award (AAP Los Angeles 2012) & Align Research Award (California 2013).

Prof Rasperini currently serves as the Professor in Periodontology at the University of Milan (Italy), an Adjunct Clinical Associate Professor at the University of Michigan (USA), and lectures extensively around the world. He also maintains a private practice specialising in periodontics and implant therapy in Piacenza, Italy.

Amit is the principal specialist and director at Birmingham Dental Specialists in Birmingham. His special interests are dental implants, regenerative and aesthetic Periodontics.

Amit graduated from the University of Liverpool and completed a 4 year specialist training programme in Periodontics at Guy's, King's & St Thomas' Dental Institute. Amit was an Associate Specialist in Periodontics at the Birmingham Dental School for 9 years and is still an Honorary Clinical Lecturer at the University of Birmingham School of Dentistry. He has taught at undergraduate and postgraduate level, including lecturing to dental practitioners both in the UK and internationally. Amit is also on the committee of the Association of Dental Implantology and the President Elect.
Faculty

Having qualified as a dentist in 2012, Viraj has set out to gain the necessary experience to help him with his goal of becoming one of the lead Implantologists in the UK for the future.

Viraj undertook hospital training in Maxillofacial and Oral surgery in 2014 and since has attended multiple Dental Implant courses within the UK. In 2018 his passion for implants led him to New York City, where he enrolled for 2 years at New York University (NYU), on the world-renowned Advanced Implant Dentistry Program.

Since moving back to the UK on completion of the Program in 2020 Viraj has been working as a dental implantologist in private practices across London. The majority of cases referred to him are those requiring implants in the aesthetic zone as well as ridge augmentation procedures.

Dr Viraj Patel
BDS Honours (Cardiff)
MJDF (RCS England)
Certificate in Advanced Implant Dentistry (New York University)
PgCert Clinical Teaching (RCGP)
Clinical Implant Diplomate (ICOI)

Dr Fazeela Khan-Osborne leads the FACE Team both on the surgical and restorative side, and is the Principal Implant and Restorative Dental Surgeon of a multidisciplinary clinic based in Harley Street, London.

She holds an MSc in Restorative Dentistry with Distinction and her Special interests is in Implant Dentistry: the surgical and restorative full arch rehabilitation of the maxilla. She is also developing an interest in treatment modalities for Peri-implantitis within clinical practice.

She lectures worldwide on Implant Dentistry and is an active member of the ADI, BAAD, ICOI. She is the former Lead Tutor on the Diploma Of Implant Dentistry at the Royal College of Surgeons of England. She also teaches extensively within clinical practice and is the lead Clinician on the Implant Year Programme which is in its 15th Year.

She also teaches extensively in clinical practice and is the Founding Lead Clinician of the PG Diploma In Implant Dentistry (Level 7). This implant programme is now in its 20th year.

Dr Fazeela Khan-Osborne
MSc.BDS (Lon) BSc(Hons)
LDS.RCS (Eng) DRDP Dip. Imp. Dent.(RCS.Eng) Advanced Certificate, FCOI
Supporting Faculty

Mr Sami Stagnell
BDS MFDS (RCSEs) MSc
MF GDP(UK) AKC MOralSurg
RCSEng/Ed) AFFMLM

As a specialist he currently manages and provides NHS Oral Surgery across the Wessex region and is one of the few UK graduates to have held an ITI scholarship where he spent a year in Graz Austria with the Oral Surgery and Implant team expanding his Implantology skillset.

He holds Memberships with the Royal College of Surgeons Edinburgh and England as well as the Faculty of General Dentistry. Sami has completed an MSc in Aesthetic Dentistry and was awarded one of the first recognised UK Fellowships in Clinical Leadership with Health Education England. Furthermore, he is an active member of many societies and represents the profession with the British Dental Association and at the Royal Society of Medicine as well as acting as a Key Opinion Leader to several companies within the industry.

Dr Payman Sobhani qualified from Leeds University in 2012. He currently holds an associate position in Harley Street and has his own practice in Kent. He is a tutor on the One to One Education Faculty and lectures with the team on the PG Diploma In Implant Dentistry (Level 7). He has worked extensively with Dr F Khan-Osborne on all aspects of surgical and restorative Implant work. He is also passionate in aesthetic dentistry techniques and is shortlisted for commendation regularly.

Getting There

By Car
The RCP is outside the congestion charge zone. We have limited car parking spaces available for members and fellows, which are available to book in advance. On-street parking is available in Regent’s Park and there is a pre-bookable car parking facility close to the venue.

The RCP has free car parking for disabled visitors. To make arrangements please phone us on +44 (0)20 3075 1200 or +44 (0)20 3075 1363 in advance of arrival. Unfortunately, spaces cannot be guaranteed to visitors who do not book in advance.

By Train
If you are arriving by train the nearest stations to the RCP are Euston (11 mins); Marylebone (20 mins); King’s Cross and St Pancras International (25 mins).

By Underground
If you are travelling to the RCP via the underground, the nearest tube stations are Regent’s Park (Bakerloo line; 4mins); Great Portland Street (Circle, Metropolitan and Hammersmith & City lines; 4mins); Warren Street (Victoria and Northern lines; 8mins).

To book your place at this Geistlich event, please contact your local Geistlich Product Specialist or email: marketing@geistlich.co.uk
Early bird tickets at £399 are limited. Full price ticket £449.
Payment will be collected prior to the event via telephone.
